A Question

Often asked, but seldom answered satisfactorily: "What is remedy known to the physician that will allay the sufferings peculiar to women who are subject to dysmenorrhea and its attendant disorders?"

Ladies

If you have not tried it, do so AT ONCE.
There is relief for you; it has been found in

Tongaline

Read what an eminent physician has to say upon the subject:

"I have derived particularly gratifying results from the use of Tongaline in cases of hysteria, and a chronic sufferer from this disease, who had been tormented by it for years, was relieved of his suffering. His action has been most satisfactory. It relieved her promptly, and she now passes the case with entire freedom from trouble. I have seen no mention other instances of a similar character, but this is a remarkable case."

T. F. FRAZER, M. D.

For sale by all Druggists. Price \$1 per bottle.

A. A. MELLIER, Sole Proprietor,
709 and 711 Washington Avenue,
ST. LOUIS, MO.

D. W. S. HOOES,
DENTIST.

Office Second Street, over Eudon & Hooker's dry goods store.
Nitrous-Oxide Gas administered in all cases.

T. H. N. SMITH,
DENTIST.

Nitrous-Oxide or laughing gas used for the painless extraction of teeth. Office on Court Street.

C. W. WARDELL,
Dentist.

Nitrous-Oxide Gas administered. Office adjoining BULLETIN office—up-stairs.

G. M. WILLIAMS,
DENTIST.

Fine work in all the departments of dentistry. Nitrous Oxide Gas administered. Office and residence White Block, corner Third and Lexington Streets.

W. A. NORTON,

Headstones, &c. The largest stock of the latest designs. The best material and work ever done in this country. Moderate rates and prices. Those writing to Mr. Daugherty or Marry are invited to call and see for themselves. Second street, Maysville.

THE MEXICAN-WAR CLOUD

THE UNITED STATES SENDING GUN BOATS TO TEXAS.

Great Activity in Military Circles—Involving Ammunition and Preparing for Shipment at a Moment's Notice—The Preparation for War in Washington.

NEW YORK, Aug. 11.—There was activity at the army posts in and near New York, and communication with Washington was continuous. At Fort Hamilton the serjeants' munitions of war were inventoried and inspected, and it was determined just how much could be depended upon from the quartermaster's department. At Fort Monmouth, Willets' Point, and David's Island had already reported. At Pier 30, East river, ten gun carriages, for field batteries, were delivered to the Mallory Steamship company for immediate shipment to San Antonio, Tex., via Galveston.

They will be carried by the Rio Grande, which will sail Wednesday. Col. Hollingsworth, of the quartermaster's department, who shipped them, said that the shipment was made in the ordinary course of business, and that no preparations had been made to put abroad, at that arms are being shipped from Washington and Rock Island, and also from the water fleet arsenal.

The United States ships, Junius and Valencia, had been sent to the Mexican yards under orders, it is said, for the Pacific. At Island they received their supplies of ammunition, and they have remained there since. The Essex left the navy yard at 5 o'clock yesterday morning, bound for Mazatlan, Mexico. The Brooklyn is expected to meet her to take her departure on Wednesday.

At the navy yard it was said that the Essex was to join the Chinese squadron if she was needed nearer home.

At Washington.

WASHINGTON, Aug. 11.—There are some rumors about the sending of troops to the Mexican frontier, but the exact number and a chronic sufferer from this disease, who had been tormented by it for years, was relieved of his suffering. His action has been most satisfactory. It relieved her promptly, and she now passes the case with entire freedom from trouble. There are no mention other instances of a similar character, but this is a remarkable case."

brevet from an official at Washington to an official at El Paso which read as follows: "Executive Bayard has just directed a memorandum upon the Mexican government for the immediate surrender of Cuttig." When the dispatch was bulletined it created the liveliest interest. Everybody is talking war and praising Secretary Bayard's firmness.

WASHINGTON WAIFS.

Appointed to the President by the President.

Catherine Hartwell of Seneca Falls.

WASHINGTON, Aug. 11.—The following postmasters were to-day appointed: Hiriam Hubert, Quintin, Ga.; S. H. Shearer, Huntington, Ind.; Thomas Wilson, Cairo, Ill.; J. P. Powell, Montgomery City, Mo.; W. H. Williams, Waukegan, Ill.; John Palmer, Duquoin, Ill.; John Culbreth, Delaware, Ill.; Milton Purch, Georgetown, Ky.; William Groome, Vickburg, Miss.

Appointments to the Senate Failed to Act On.

GENERAL CROP REPORT.

THE CROPS AS REPORTED TO THE AGRICULTURAL DEPARTMENT.

A Reduction in the General Average of the Condition of Spring Wheat—The Average of the Foreign Crops—Injury to the Cotton Crop—Average by States.

WASHINGTON, Aug. 11.—Concerning wheat stocks and production, the report of agriculture for August 1 shows an improvement in condition in Iowa, a small decline in Wisconsin and Nebraska, and a heavy reduction in Dakota. The cause of deterioration are drought and which bugs. Heat has been excessive in many districts that have produced a fair yield notwithstanding. The harvest is two weeks earlier than usual, and the quality is unusually good, except in the case of wheat where a slight loss has occurred.

The general average of condition is reduced from 83.2 to 80.1. At the time of harvest last year the average was 86. A part of the loss since occurred after August 1. As the present harvest is already well over, the final estimate will be made in October, and the final estimate cannot be much further reduced. The present average is 97 for Iowa, instead of 90 last month. No less than twenty-five counties, each producing 100 or over, are reported in poor condition, 100 or over. In Minnesota there is an increase from 78 to 80. The reduction in Wisconsin is from 75 to 72; in Nebraska from 83 to 83, and in Dakota from 83 to 82. Winter wheat previously harvested is not reported this month.

There has been a heavy decline in the condition of corn since the 1st of July. The average which was then 95, is reduced to 81. The heaviest decline is in Illinois, Wisconsin, Indiana, Michigan, Ohio, and the eastern and middle states condition is well maintained. It indicates a crop not much exceeding twenty-two bushels per acre, though future conditions may increase or decrease the present yield.

The average of spring rye is 88. There has been no material decline in oats, the average being 87. Barley has maintained its condition, and a nearly average crop is assured. The condition of buckwheat averages 91; of oats, 90.

Our agent in London cables that the European harvest will be 10 per cent. less than last year; France below one hundred million hectolitres; Italy 51; England 10 per cent. reduction in rate of yield.

The cotton crop has suffered from wet weather in all the states east of the Mississippi and in Louisiana. The average of condition has been reduced from 86 to 81. Virginia, North Carolina, 74; South Carolina, 67; Georgia, 59; Florida, 80; Alabama, 77; Mississippi, 70; Texas, 73; Arkansas, 70; Kansas, 93; Tennessee, 95. There has been a slight advance in Arkansas and Texas. The decline is heavy in the Carolinas.

THE NEW ATLANTA.

Her Second Trial Trip Will not Take Place for Some Time Yet.

NEW YORK, Aug. 11.—The second trial trip of the new steel cruiser, Atlanta, will not take place until she is completely fitted for active duty. The machinery is to be tested, and the trials and the right of way attention. All the Atlanta's guns will be put in before the next trip, and this will require weeks of preparations. The trip can't be made until the middle of the fall, and meanwhile the Atlanta will remain in the Brooklyn navy yard.

Chief Constructor Theodore D. Wilson, of the bureau of construction and repair, visited the Brooklyn navy yard yesterday, and inspected the Atlanta. He said: "I think she is a good vessel, and the right of way attention. She has been accepted by the admiralty, and that she should be accepted from the builders. I think she will be soon capable of a speed of fourteen or fifteen knots in an hour."

SURROUNDED BY FIRE.

People Compelled to Leave the Village of Big Spruce by Steamer.

MILWAUKEE, Aug. 11.—It is reported from Green Bay that the village of Shaino is to be set fire by the people who sent a request for a steamer to take them to Green Bay. About one hundred gathered at the river's mouth to await the arrival of the steamer.

The fires on the Oconto reservation swept northeastward through the town of Lawrence, burning twenty houses, and reached the timbered Willow's air mill. The flames are reported to be moving toward Nicolet. The Chicago & Northwestern track at Pensaukee is reported burned, and there are rumors that the village is being destroyed. Railroad traffic was obstructed by the fire.

Five Persons Killed in a Kitchen Explosion.

MILWAUKEE, Aug. 11.—A kitchen exploded from Lee Mills, says the boiler of the driving engine exploded on the Foster farm, near Jefferson. Wie, the engineer, and his son, Joseph Klein, and his ten-year-old son, Joseph, were killed. The explosion, at eight years, and a man named Fisher were fatally scalded. Several others received scalds.

Official Bird Missing.

PHILADELPHIA, Aug. 11.—The official bond for \$25,000 of the late A. J. Green, who was treasurer of Gloucester City, N. J., cannot be found. The bond was in the care of Clerk Joseph Green, and his son, Joseph, Jr., who Green did not raise. It is believed that Green's accounts are badly confused, but it is believed his assets will cover his liabilities by about \$25,000.

An Old Lady's Shocking Death.

CHATTANOOGA, Tenn., Aug. 11.—Mrs. Mary Told, an aged lady from New Haven, Conn., on the Cincinnati Southern railroad, met a shocking death yesterday afternoon. She was walking on the track, when the lightning express struck her. Her body was knocked seventy-five feet and death was instantaneous.

Bicycle Tournament.

SPRINGFIELD, Mass., Aug. 11.—The Springfield Bicycle Club will hold its annual bicycle festival September 14, 15, 16 and 17. The chief feature will be a one mile international world's championship race for amateur riders with a record of 2:45. A party of eighteen of England's fast amateurs is probably promised.

A Great Undertaking.

ERIE, Pa., Aug. 10.—The Standard oil company has leased about fifty square miles of territory to the Erie and adjoining counties and will put up about 100 wells to Cleveland. Two wells which are being put down in the Laborer Valley are yielding oil in paying quantities.

POINTED PARAGRAPHS.

Topics of the Times Given in a Tongue and Spicy Manner:

The Anglo-Spanish Treaty of commerce into effect.

President Andrew Maximo Lalaune, the French designer and engraver, is dead.

The wheat crop of France is estimated at 100,000,000 hectolitres, against 110,000,000 in 1885.

August Spies and Michael Schwab were on the witness stand in the Anarchists' trial in Chicago.

Sir Samuel Ferguson, Q. C., LL.D., and president of the Royal Irish academy, is dead. He was sixty-seven years of age.

Sixteen valuable race horses were instantly killed or burned to death on the Omaha fair grounds by the stable being struck by lightning.

It is stated that the bill for the conversion of the Cuban foreign debt has been modified, and it will have to be sent back to the senate.

Mr. Tilden left an estate valued at \$300,000. One thousand is left to relatives, the rest to establish libraries and other institutions for public benefit.

The British government has adopted the proposal of the royal commission, the designation of tracts, to appoint a special committee to examine the financial condition of the colony, the final estimate cannot be much further reduced. The present average is 97 for Iowa, instead of 90 last month. No less than twenty-five counties, each producing 100 or over, are reported in poor condition, 100 or over. In Minnesota there is an increase from 78 to 80. The reduction in Wisconsin is from 75 to 72; in Nebraska from 83 to 83, and in Dakota from 83 to 82. Winter wheat previously harvested is not reported this month.

There has been a heavy decline in the condition of corn since the 1st of July. The average which was then 95, is reduced to 81.

The heaviest decline is in Illinois, Wisconsin, Indiana, Michigan, Ohio, and the eastern and middle states condition is well maintained.

It indicates a crop not much exceeding twenty-two bushels per acre, though future conditions may increase or decrease the present yield.

The average of spring rye is 88. There has been no material decline in oats, the average being 87.

Barley has maintained its condition, and a nearly average crop is assured. The condition of buckwheat averages 91; of oats, 90.

Our agent in London cables that the European harvest will be 10 per cent. less than last year; France below one hundred million hectolitres; Italy 51; England 10 per cent. reduction in rate of yield.

The cotton crop has suffered from wet weather in all the states east of the Mississippi and in Louisiana. The average of condition has been reduced from 86 to 81.
